

UW-Stout

We have an advising survey we do annually.

All freshmen students are advised in their first year by an academic advisor in the Advisement Center. They transition to a faculty advisor in their program on Advisement Day in the April of their freshmen year. The first year advisors hold transition meetings in preparation for transferring to a faculty advisor and the survey is administered at that time. The return rate is over 50%.

The survey is available at:
