

Informational Memorandum

Trends in Enrollment: Fall 2003 Update

**UW System Headcounts and FTE Counts,
Fall 1972 to Fall 2003**

Highlights

- Fall 2003 full-time equivalent (FTE) enrollment.....135,798**
 Up 145 (0.01%) from fall 2002.
 Details shown in Table 1.
- Fall 2003 headcount enrollment.....160,703**
 Up from fall 2002.
 Details shown in Table 2.
- UW System exceeded its fall 2003 full-time equivalent (FTE) enrollment target by 455 FTE (0.3%)**
 Seven institutions met (within +/- 1.0%) their FTE enrollment target.
 Three institutions exceeded (more than +1.0%) their FTE enrollment target.
 Four institutions fell below (more than -1.0%) their FTE enrollment target.
 Details shown in Table 8.

ENROLLMENT SUMMARY

Introduction: Enrollment Planning

This Informational Memorandum presents data on enrollment in the University of Wisconsin System since 1993. This period brackets a significant change in UW enrollment planning. Enrollment planning was initiated in 1987 as a reaction to enrollments that were too high given the resources that the UW System had available to serve students. An anticipated decline in the number of high school graduates in Wisconsin provided an opportunity to decrease enrollment without decreasing the service rate, or the percentage of Wisconsin high school graduates that enroll in the UW System annually. From 1987 to 1994, two different enrollment plans, Enrollment Management I and Enrollment Management II (or EM I and EM II, respectively), brought enrollments in the UW System down to levels more consistent with resources.

By 1994, demographic trends reversed and it was estimated that the University of Wisconsin System would need to accommodate an additional 10,000 Wisconsin high school graduates annually. The enrollment plan known as EM III set enrollment targets designed to grow enrollments over the following years.

Despite budget reductions at the beginning of EM III, the UW System continued to serve approximately 32 percent of the larger higher school graduating classes. However, while the enrollment of traditional age students was increasing, enrollments of non-traditional age students declined. Consequently, the subsequent enrollment plan, known as EM 21, was implemented. The targets for EM 21 were set to allow campuses more flexibility to serve non-traditional markets.

Overall Enrollment 1993-2003

FTE Enrollment. Enrollment management targets are based on full-time equivalent (FTE) students. This is a commonly used measure of the resources that must be devoted to instruction and student services.

Table 1 shows FTE enrollment by campus from the 10-year period from fall 1993 to fall 2003. However, a better historical comparison is with 1995, the first year of the EM III enrollment management plan, when UW System enrollments were at the lowest level overall. After a period of substantial growth, FTE enrollment remained essentially flat between 2002 and 2003, growing by only 145. Looking first at the doctoral campuses, from 1995 to 2002, FTE enrollment at UW-Madison grew by 6.1 percent, and was unchanged in 2003. UW-Milwaukee FTE enrollment grew by almost 21 percent during the same period, and then increased by 409 FTE between 2002 and 2003.

The comprehensive campuses grew by 6.6 percent between 1995 and 2002. Growth was neither uniform across campuses nor constant throughout the period, with only UW-Parkside growing enrollments nearly every year. UW-Eau Claire reached a peak in 1998, and then declined, reaching another peak in 2002, followed by another significant decline. UW-La Crosse enrollment peaked in 1998. A planned enrollment decrease brought enrollments back down to the levels of 1995 by 2002.

Enrollment at UW Colleges grew by 37 percent from 1995 to 2002. Much of this growth was in the years 1998 to 2002, when the two-year system grew by 27 percent.

Headcount Enrollment. While enrollment management targets are based on FTE enrollment, campuses meet enrollment targets by managing headcount enrollment, which represents the number of students actually served by the UW System.

Between fall 1995 and fall 2002, headcount enrollment at UW-Madison increased by 3.3 percent, compared with an increase in FTE enrollment of 6.1 percent. At UW-Milwaukee, the growth in headcount enrollment during the same period was 9 percent, compared to an increase of nearly 21 percent in the FTE enrollment. This change at both campuses indicates that a higher proportion of students are enrolling full-time.

Between fall 1995 and fall 2002, headcount enrollment at the comprehensive campuses increased by 5.5 percent. With an FTE increase of 6.6 percent, there has been only a small shift towards a higher proportion of full-time students. Similarly, the UW Colleges headcount enrollment grew by 34 percent during this period, which is almost the same as the growth in FTE enrollment.

Between fall 2002 and fall 2003, headcount enrollment remained stable, increasing by 68 from the 2002 figure of 160,635. The headcount was down by less than 100 at UW-Madison, and was up by over 530 at UW-Milwaukee. The comprehensives decreased by over 300, with most of the loss coming at UW-Eau Claire.

Undergraduate Enrollment 1993-2003

Generally, the historical trend of undergraduate FTE enrollment tracks closely the overall trend. This is not surprising as undergraduates make up 88 percent of FTE enrollment in the UW System. Similarly, the historic trend of undergraduate headcount enrollment tracks closely the overall trend. Since the start of EM III in 1995, undergraduate FTE growth accounts for 95 percent of the overall growth in UW System FTE and undergraduate headcount growth accounts for 90 percent of the growth in headcount enrollment during the same period.

Graduate Enrollment 1993-2003

In 1993, UW System graduate student FTE enrollment was almost 15,800. Enrollment declined thereafter, reaching a low point in 1998, with a steady increase since then. However, FTE enrollment is still below 1993 levels.

UW-Madison has experienced an FTE enrollment decline in the master's category, which is currently near the recent enrollment low recorded in 1998. On the other hand, FTE in professional degree programs has increased by over 500 (or 28 percent), which may be due additions to professional programs on the Madison campus. The pharmacy school at UW-Madison has been restructured from a program granting baccalaureate degrees to a professional school granting the first professional Pharm.D. degree. In addition, physical therapy programs across the system started granting first professional MPT or MSPT degrees in the late 1990s, rather than the BS degree.

UW-Milwaukee has seen graduate FTE rise and fall over the last 11 years. Currently, FTE at UW-Milwaukee is 5 percent above 1993 levels.

Among the comprehensive campuses, both UW-La Crosse and UW-Platteville have seen growth during the period in graduate enrollment. In particular, UW-Platteville has recorded strong growth in the last two years. UW-Superior has seen FTE decline from 206 to 144, or by 30 percent.

There were 23,387 graduate students enrolled in the UW System in 1993. Headcount enrollment declined after that, reaching a low point in 1999 at 20,787. Enrollment has only grown 575 since then. This is slower than the growth in graduate FTE, indicating that more graduate students are enrolled full-time. As with FTE, most of the decline is in enrollment in master's degree programs. Both UW-Madison and UW-Milwaukee have master's and Ph.D. enrollments below the 1993 level. The only growth has been in the professional category at UW-Madison.

Among the comprehensives, UW-Platteville has seen the most growth in headcount enrollment. The FTE growth at UW-La Crosse is not paralleled by a growth in headcount enrollment, indicating that more graduate students are attending this campus full-time. As with FTE, UW-Superior has seen a substantial drop in graduate headcount enrollment since 1993.

Enrollment Targets

At the start of EM III, in 1995, UW System enrollment was consistently below target. The FTE target was not exceeded until 1998. Since then, the system as a whole has been over target. In 2002, the system was 1.8 percent over target, the biggest positive difference in the 11 year period included in this report.

By 2003, enrollment growth slowed and the UW System exceeded target FTE by 455, or 0.3 percent. Seven campuses met (within ± 1.0 percent) their FTE targets. These campuses are: UW-Milwaukee, UW-Eau Claire, UW-Oshkosh, UW-Parkside, UW-Stevens Point, UW-Stout and UW Colleges. Three campuses exceeded their FTE targets by more than 1.0 percent. These were: UW-Madison, UW-Green Bay and UW-Whitewater. Four campuses fell more than 1.0 percent below their fall 2003 FTE targets: UW-La Crosse, UW-Platteville, UW-River Falls and UW-Superior.

Fall FTE enrollment declined from 1991 to 1995 and has continued to rise steadily since fall 1995 (Table 1). In fall 2003, the UW System enrolled 135,798 full-time equivalent (FTE) students. This represents an increase of 145 FTE students, or 0.1%, from fall 2002.

*Institutional totals may not add to subtotals and totals due to rounding.

Fall headcount enrollment declined from 1991 to 1996 and has continued to rise since fall 1996 (Table 2). In fall 2003, the UW System headcount enrollment was 160,703. This represents an increase of 68 students, or less than 0.1%, from fall 2002.

As seen with total FTE enrollment, undergraduate FTE enrollment increased each year since fall 1995, although undergraduate FTE enrollment decreased in fall 2003 to 120,037 (Table 3). This represents a decline of 60 FTE, or a decrease of less than 0.1 percent from fall 2002.

*Institutional totals may not add to subtotals and totals due to rounding.

Undergraduate headcount enrollment has been increasing annually since 1996 (Table 4). Fall 2003 undergraduate headcount enrollment increased 218 from fall 2002. This represents a 0.2% increase. The undergraduate headcount enrollment in 2001, 2002 and 2003 are the highest in over a decade.

Seven institutions met (within +/- 1.0%) their FTE enrollment targets (Table 8). These institutions are UW-Milwaukee, UW-Eau Claire, UW-Oshkosh, UW-Parkside, UW-Stevens Point, UW-Stout and UW Colleges. Three institutions exceeded their FTE enrollment targets by more than 1.0%. These institutions are UW-Madison, UW-Green Bay and UW-Whitewater. Four institutions, UW-La Crosse, UW-Platteville, UW-River Falls and UW-Superior, fell more than 1.0% below their fall 2003 FTE enrollment targets.
