

Total vs. State-Supported Enrollments in the UW System

Students in the UW System enroll in a wide range of academic courses. While the majority of these courses are supported by state General Purpose Revenue (GPR) funds, some are funded through other revenue sources. Prior to fall 2006, Student Statistics reports were limited to students enrolled in state-supported (GPR-funded) courses. Beginning with fall 2006, enrollments include all student enrollments and all credit activity provided at UW System institutions. Prior year Student Statistics reports have been updated to reflect this change.

The chart and table below show the historical difference between total and state-supported enrollments in the UW System, both for fall headcount and fall full-time equivalent (FTE) enrollments.
