

Lesson Study Training Grants (2006-2008)

Lesson Study Training Grants are awarded to teams of instructors who participate in lesson study training, carry out a lesson study in their classes, and document their work online. Since 2006 the grants have supported 71 lesson study teams involving 275 instructors in about 34 disciplines at every UW campus. To see examples of completed lesson studies go to the Lesson Study Project home page at www.uwlax.edu/soti/lsp and click on the Gallery. Several campuses including Green Bay, La Crosse, Milwaukee, Stout and Whitewater have supported one or more of their campus teams with institutional funds.
