Security by Function
(Figure B-20)

PURPOSE: This screen is used to enter selection criteria to retrieve and display the TIS maintenance users who have access to a given TIS function.

FUNCTION NOTES:

The upper section of the screen lists the key field used to retrieve the user list. The lower section displays the information associated with the selection criteria entered above.

To retrieve a screen of user access, enter a TIS Function Abbreviation and press ENTER. Or you may place the cursor on the field and press F1 to get a list of possible entries for the Function field and select from the list.

The lower section of the screen displays the users and access levels for the users. You may use the F4 (Page Down) key to scroll down through the records or the F3 (Page Up) to page up the list.

DATA ELEMENTS:

The following data element is used to retrieve the user list:

Function Abbreviation

The following TIS information is displayed:

User ID: The User Login ID assigned to the maintenance user.

User Name: The user's name as listed in the TIS User Profile Table.

No Access: An "X" in the "No Access" column indicates that the user does NOT have access to the given function.

View Only: An "X" in the "View Only" column indicates that the user is allowed to view data within the given function but is NOT authorized to update the information.

Update Inst Data: An "X" in the "Update Data" column indicates that the user is allowed to update data within the given function for his/her institution. The user may also view data for any institution within the function.

Update Any Institution: An "X" in the "Update Any Institution" column indicates that the user is allowed to update data for any institution within the specified function. Generally, only TIS staff are authorized at this access level.
